Enter child's name here. To create a lesson plan for a different child, click File - Save As and save a new copy.

Leave this blank if you want the planning sheets to have today's date. Add a date here to print the date out on the planning sheet and to help you schedule.

Replace each subject name with all your own subjects.

These are the numbers you will use to populate the template with the correct row of information.

Type the work to be done this day or this week. Don't worry if you can't see all the text you entered, you will see it on the lesson plan printout.
